Committees

ISSF – IPC Headquarters

Their addresses

*Distinguished President, Dear friends in sport,*

*In compliance with the agreement about the development project for a shotgun discipline for shooters with disabilities (art. 14 and 15 of the Memorandum of Understanding between ISSF and IPC), and within the guidelines of the Strategy plan submitted by FITAV last March 14th to IPC and ISSF, as described at point 4. of the Addendum to the above mentioned MOU: "FITAV is authorized to conduct test competitions for Shotgun events for the disabled and to report their recommendations to the ISSF for review and comment and to the IPC for approval" - we are proud to announce that an International test competition reserved to shooters with movement related impairments shall be organized in Italy next August 27-29, 2013.*

*The main objective of this event is to develop and gather research and data to further this project. Therefore the organizers of this event, the Italian Shooting Sport Federation (FITAV) and the Italian Paralympic Committee (CIP) do trust in the active collaboration of all ISSF Member National Federations, and recommend all National Paralympic Committees in co-operation with their national shooting federations, to give their maximum support to the success of this event through the participation of their national eligible licensed athletes.*

*Trusting in your most appreciated contribution, we remain*

*Yours in Sport*

Luciano Rossi, MP  
FITAV President

Luca Pancalli  
NPC of Italy, President
